

THE FUSION® XT BRACE

FUSION XT Frame Design

Sleek, contoured frame made of lightweight, high-strength 2024-tempered aluminum offers enhanced strength and unhindered mobility.

Cushioned Straps

Easily adjustable/removable straps ensure a proper fit and dependable fixation. Additional strap padding is durable, comfortable and can be removed for easy cleaning.

ProForm™ Technology

Medial side structure utilizes Zytel™, a strong yet flexible polymer that conforms to the leg's shape to provide a contoured fit and superior protection.

PivotPoint Strap Tabs

Pivoting strap tabs provide comfort during motion and are constructed with Zytel for added strength and durability.

Soft, Contoured Frame Pads

Contoured frame padding conforms to the leg, providing increased comfort.
