

Because Backs Aren't Flat.

THE MIAMI LUMBAR™ LSO BY ÖSSUR

Life Without Limitations®

MIAMI LUMBAR.™

A NEW LSO FROM THE MAKERS OF THE MIAMI J® CERVICAL COLLAR.

Like an ergonomic chair.

The human anatomy is curved. Which is why both the Miami Lumbar belt itself and its various support panels are sculpted to hug the contours of the back, improving comfort, stabilization and compliance.

US

THEM

It's cool to be cool.

Breathable Aerospace fabric and ventilated support panels combine to keep Miami Lumbar cool and comfortable to wear for extended periods of time.

Pressure, only where you want it.

Miami Lumbar relieves pressure over the spinous processes while applying an even pressure to the paraspinal musculature to ensure comfortable and effective healing.

It's a cinch to cinch.

With a four-to-one ratio drawstring and an easy-to-use pulley system, Miami Lumbar is simple to tighten, even for arthritic and/or geriatric patients.

A MODULAR SYSTEM OFFERING COMPLETE CONTROL

THE TRIMMABLE MIAMI LUMBAR™ BELT COMBINES WITH OPTIONAL, HEAT-MOLDABLE ANTERIOR AND POSTERIOR PANELS TO CREATE A CUSTOMIZABLE, MODULAR SYSTEM. STEP UP, OR DOWN, THE LEVEL OF SUPPORT TO SATISFY THE IMMOBILIZATION NEEDS OF EVERY PATIENT.

The trimmable Miami Lumbar™ belt

Posterior panels, with or without lateral supports, affix to the yellow attachment site (4 sizes)

Anterior panels (standard or pendulous) affix to the blue attachment site
