## PLANTAR FXT®

## Nighttime Relief for Plantar Fasciitis!

### Greater Patient Comfort

Plantar Fasciitis is painful enough; the treatment shouldn't cause additional irritation. The Plantar FXT is the ideal alternative to cumbersome Night Splints. The Plantar FXT is easy to apply, low profile and comfortable to wear.

### Effective Treatment for Plantar Fasciitis

The Plantar FXT keeps the plantar fascia in a comfortable and stretched position during sleep. This prevents further damage and allows for healing. With regular use the Plantar FXT helps eliminate the sharp pain caused by Plantar Fasciitis.

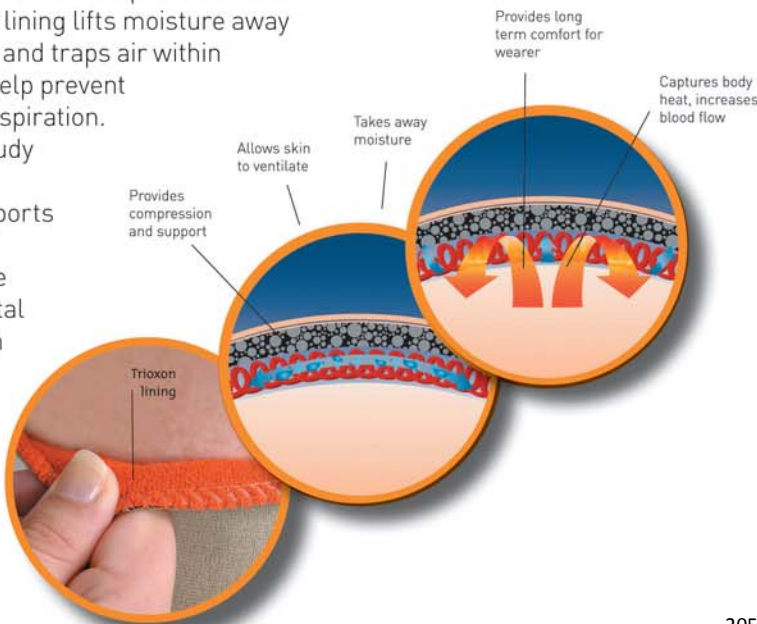

### THE Alternative to Night Splints

It is no secret that patient compliance is low with Night Splints. These splints are bulky and uncomfortable to sleep in. The Plantar FXT is much more patient friendly due to ease of use, comfort and the low profile design.

### Clinically Proven Heat Therapy:

Only Thermoskin Thermal Supports have been clinically proven to increase subcutaneous skin temperature 2-3°F for the optimal level of heat therapy. Thermoskin's patented Trioxon® lining creates a micro-climate that maintains elevated skin temperature while still allowing the skin to ventilate for long-term user comfort. The spiral structure of the Trioxon lining lifts moisture away from the skin and traps air within the lining to help prevent excessive perspiration. In a recent study Thermoskin Thermal Supports provided "Considerable Relief" or "Total Relief" of pain in 83% of patients.

### SIZING GUIDE AND MODEL NUMBERS

Model Number 8*234	XS	S	M	L	XL	XXL
Plantar FXT Sized Men's	3-5	6-7	8-10	11-12	13-14	15+
by Shoe Size Women's	4-6	7-9	10-11	12-13	14-15	16+

Your Thermoskin should be a snug and comfortable fit. Not too tight, not too loose. If in doubt try next larger size. Use of the correct size is essential for effective results. Before buying, check size and measurement instructions.

When ordering put in code number for size required in place of asterisk. Size code numbers are: 2 for XS, 3 for S, 4 for M, 5 for L, 6 for XL, 7 for XXL.

HEEL•RITE™

## Daytime Relief for Plantar Fasciitis!

### Greater Patient Comfort

Plantar Fasciitis is painful enough; the treatment shouldn't cause additional irritation. The patented Heel-Rite provides effective daytime treatment for Plantar Fasciitis. The Heel-Rite is patient friendly due to ease of use, comfort and the low profile design.

### Effective Treatment for Plantar Fasciitis

The Heel-Rite fits comfortably in your shoe to provide daytime treatment and pain relief during your normal routine. The support straps lift the arch and provide compression to the plantar fascia (Arch area) for immediate relief. The Heel-Rite applies effective support to relieve tension and pain on the plantar fascia during the day when the sufferer needs it most.

### Added Benefit of Heat Therapy

Only Thermoskin Thermal Supports have been clinically proven to increase subcutaneous skin temperature 2-3°F for the optimal level of heat therapy. Thermoskin's

patented Trioxon® lining creates a micro-climate that maintains elevated skin temperature while still allowing the skin to ventilate for long-term user comfort. The spiral structure of the Trioxon lining lifts moisture away from the skin and traps air within the lining to help prevent excessive perspiration.
